

I oppose the weakening of Indiana's Telephone Privacy Law. People I do business with have no right to call me to solicit anything. Not only am I on the Indiana no-call list...I am on the federal no-call list. AND I have an unlisted phone number. It is my right to privacy that will be invaded if this law is passed so that Consumer's Bank Association can have their way. Please protect my rights as well as those of other citizens....don't let big business have their way.
